# Schedule C: The Property You Claim as Exempt

04/25

Be as complete and accurate as possible. If two married people are filing together, both are equally responsible for supplying correct information. Using the property you listed on Schedule A/B: Property (Official Form 106A/B) as your source, list the property that you claim as exempt. If more space is needed, fill out and attach to this page as many copies of Part 2: Additional Page as necessary. On the top of any additional pages, write your name and case number (if known).

For each item of property you claim as exempt, you must specify the amount of the exemption you claim. One way of doing so is to state a specific dollar amount as exempt. Alternatively, you may claim the full fair market value of the property being exempted up to the amount of any applicable statutory limit. Some exemptions—such as those for health aids, rights to receive certain benefits, and tax-exempt retirement funds—may be unlimited in dollar amount. However, if you claim an exemption of 100% of fair market value under a law that limits the exemption to a particular dollar amount and the value of the property is determined to exceed that amount, your exemption would be limited to the applicable statutory amount.

Part 10: Give Details About Environmental Information

#### For the purpose of Part 10, the following definitions apply:

- Environmental law means any federal, state, or local statute or regulation concerning pollution, contamination, releases of hazardous or toxic substances, wastes, or material into the air, land, soil, surface water, groundwater, or other medium, including statutes or regulations controlling the cleanup of these substances, wastes, or material.
- Site means any location, facility, or property as defined under any environmental law, whether you now own, operate, or utilize it or used to own, operate, or utilize it, including disposal sites.
- Hazardous material means anything an environmental law defines as a hazardous waste, hazardous substance, toxic substance, hazardous material, pollutant, contaminant, or similar term.
